OEM Packages of 25/50/100 Gages

Most Popular OEM Gages

Stock Delivery

OEM Price as low as \$3.70 ea.

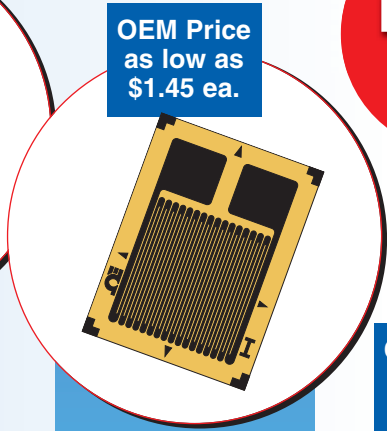

Dual Shear Gage SGT-2D/350M-SY41

Grid: Constantan foil, 5 microns thick, encapsulated

Carrier: Polyimide 20 microns thick
Resistance: 350 Ω

Actual Size
Grid: 1.6 x 1.8 mm (0.063 x 0.071")
Carrier: 5.7 x 7 mm (0.224 x 0.276")

OEM Price as low as \$1.45 ea.

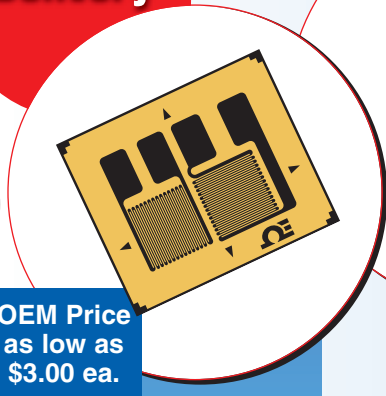

Linear Gage SGT-L3I/350I

Grid: Constantan foil, 5 microns thick, encapsulated

Carrier: Polyimide 20 microns thick
Resistance: 350 Ω

Actual Size
Grid: 0.75 x 0.75 mm (0.030 x 0.030")
Carrier: 2.75 x 2.75 mm (0.108 x 0.108")

OEM Price as low as \$3.00 ea.

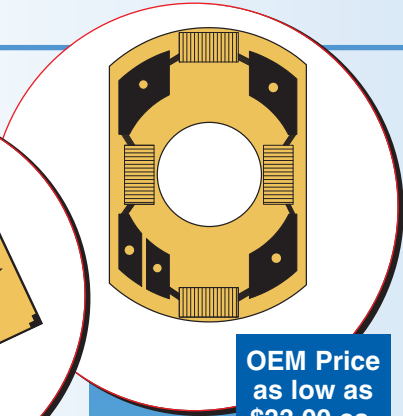

"T" Rosette SGT-2/350-XY41

Grid: Constantan foil, 5 microns thick, encapsulated

Carrier: Polyimide 20 microns thick
Resistance: 350 Ω

Actual Size
Grid: 1.6 x 1.8 mm (0.063 x 0.071")
Carrier: 4.9 x 5.8 mm (0.193 x 0.228")

OEM Price as low as \$33.00 ea.

Custom Disc Gage Full Bridge Design SGC-1/350-1762

Grid: Constantan foil, 5 microns thick, encapsulated

Carrier: Polyimide 20 microns thick
Resistance: 350 Ω

Actual Size
Grid: 1.3 x 0.8 mm (0.05 x 0.03")
Carrier: 3.8 x 5.8 mm (0.15 x 0.228")

Custom Designs! Fast Turn Around!

\$200*

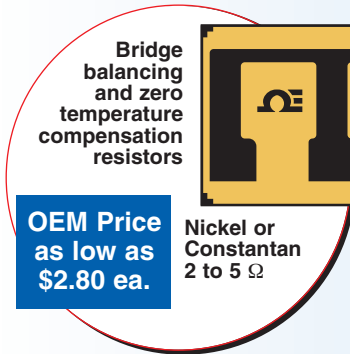

A custom order covers set-up, artwork and 5 to 10 samples—Typically in 2-weeks!

Our skilled technicians will work with you to develop gages specifically for your application. One low fee covers artwork, design and 5 to 10 evaluation samples.

- ✓ Constantan
- ✓ Karma Gages
- ✓ Modulus Compensation

*Disc gages and large area gages may be higher priced.

Strain Accessories

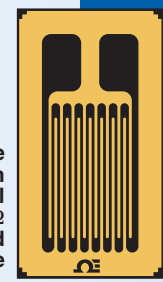

OEM Price as low as \$2.80 ea.

Bridge balancing and zero temperature compensation resistors

Nickel or Constantan 2 to 5 Ω

Temperature compensation nickel foil 10 to 60 Ω encapsulated or open face

OEM Price as low as \$2.35 ea.

BONDABLE TERMINAL PADS

Terminal pad patterns, shown larger than actual size.
